

Summer 2 2023

RED CLASS

Summer Holidays

Curriculum Intent

Child centered learning encompasses opportunities for pupils to learn and develop their confidence and skills through a broad, differentiated, and creative curriculum. Our philosophy incorporates flexibility in order that children can access a variety of experiences throughout their time with us. Our curriculum is devised so that pupils follow a pathway that will have the most effective impact on their individual development.

Introduction

Through a series of lively and interesting activities the children will build on their knowledge and understanding of themselves and the world around them.

English

During our English lessons, we will be looking at the stories 'Pick Up A Stick', 'The Tiny Seed' and 'Stanley's Stick' focussing on using captions, labels, lists and instructions.

The children will develop their writing and reading skills during our sessions and have a focus on letter formation and sentence building.

Maths

In Maths, we will further our knowledge through a CPA approach (concrete, pictorial and abstract). The children will focus on addition and subtraction using a number line and hundred squares, division, shape and pattern, ordinal numbers and using data.

Music

Pupils will continue to participate in their weekly music sessions delivered by our peripatetic music teacher. Pupils will explore a range of musical instruments and gain an understanding of musical terminology.

Science:

Plants and Growing Things

During our science sessions, we will explore different plants and our local environment to see which plants are native to the area.

We will make an image of a flower and recap on the parts of a flower. We will learn how to care for plants and observe changes to cress.

Geography

In Geography this half-term, we will continue to work on our field work skills.

We will identify features within nursery rhymes such as hills, walls and also link this with prepositional language, such as top, behind, in front and beside.

Art and DT

Art focus – David Hockney – Swimming Pool Paintings

This half-term, we will looking and exploring collage. We will use a variety of materials and mediums to create collages, thinking carefully about the background and foreground of the pictures.

We will use folding, crumpling, tearing and overlapping techniques.

Physical Education

This half-term we will be improving our swimming skills through weekly specialist coaching.

We will improve our fitness and wellbeing by undertaking a daily mile as a class.

In our PE lessons we will improve gross motor skills through using the equipment and playing indoor games.

Computing

Data Handling

During our ICT sessions, we will learn how to take photographs, record videos and sound. We will use these skills in our Science lessons.

We will use Purple Mash to collect data and generate graphs and charts.

SMSC

My Community

We will be looking at how we can make others in our school community feel valued, cared for, welcomed and included.

PSHE

Relationships

During our Jigsaw lessons, we will be focusing relationships.

We will look at falling out, dealing with bullying and being a good friend.

A trip to...
